Death Toll In Bay City Out-
rage Now 7; One Man In
Critical Condition

SAN JOSE SUSPECT IS
RELEASED BY POLICE

Wires Sent East Asking For
Descriptions of All
Known Fanatics

SAN FRANCISCO, July 25.—The
death toll in the dynamite outrage to-
day was swelled to seven when Capt.
Ruben Vaughn of this city succumbed at
the Marine Hospital of his injuries
resulting from the infernal machine
blast. His leg was shattered. He was
progressing nicely when complications
set in.

Osmunds Jacobs was arrested at
Fresno as a suspect in the bomb plot.
He was freed when he proved that he
was in Fresno when the bomb exploded,
dispatches from Fresno state.

Two Suspected
The presence in San Francisco of
two men declared to have figured in
eastern bomb plots was indicated in
telegrams sent out today by Captain
Matheson, head of the special bomb
plot squad.

Police chiefs at Pittsburg, Boston,
Philadelphia and New York were asked
to send descriptions and photo-
graphs of every known nihilist, fan-
atic or suspected bomb thrower.

Capt. Matheson also sent a message
to Tucson, Ariz., seeking information
regarding suspicious characters re-
ported there recently.

Radicals Aid Hunt
One development of the investiga-
tion was the announcement by mem-
bers of radical and anarchistic orga-
nizations of their intention to aid the
investigation. They declared that the
dynamiting casts suspicion on their
cause.

Descriptions of two new suspects
were placed in the hands of the police
today.

William Turnbull, one of the bomb
victims, is in a very critical condition.
Miss Pearl Seaman is much improved.

N. Y. PARALYSIS KILLS
647 SINCE BEGINNING
OF DREAD EPIDEMIC

NEW YORK, July 25.—Another de-
cided increase in the number of pa-
ralysis cases today followed by a
drastic government move which may
mean the barring of children under 16
from leaving New York.

There have been 150 cases during
the past twenty-four hours, as com-
pared with eighty-nine yesterday. The
total since the appearance of the epi-
demic is now 3,098 cases and 647
deaths.

COLLEGE MILITIAMEN
TO BE FORMED INTO
OFFICERS' RESERVES

WASHINGTON, July 25.—The for-
mation of college militia organizations
into officers' reserves corps today
was proposed by the War Department
in an order making provision for the
release from service of university
students in September.

PRIVATE FUNERAL OF
WHITCOMB RILEY HELD
AT 2:30 P. M. TODAY

INDIANAPOLIS, July 25.—At 2:30
this afternoon the private funeral of
James Whitcomb Riley was held. It
was in striking contrast with the over-
whelming tribute paid the poet last
night at the state house.

JAMES E. FERGUSON IN
LEAD IN TEXAS POLL

AUSTIN, Tex., July 25.—Approx-
imately 75 per cent of the returns
from the Democratic primaries give
James E. Ferguson a lead of more
than 50,000 over Charles H. Morris
for governor. Submissions are 4000
ahead of the anti-Prohibitionists and
the issue is still in doubt. The Rob-
ertson insurance law was endorsed by
a large majority.

For United States senator, Oscar
B. Colquitt is leading, with Charles
A. Culberson in second place. For
congressman-at-large, Daniel E. Gar-
rett of Houston and Jeff McLemore
have a substantial lead over "Cyclone"
Davis and Hugh N. Fitzgerald. Con-
gressmen Smith, Calloway and Ste-
phens appear to have been beaten for
re-election.

A. C. VERNON DEAD

PASADENA, July 25.—A. C. Vro-
man, proprietor of Vroman's book
store, scholar, art commissioner, and
one of the most prominent residents
of the city, is dead here today, after
a long illness. He was 60 years of
age.

Britain Refuses to
Allow Yankees to
Land in Britain

American Bringing \$50,000
For Irish Relief Not Al-
lowed Off Liner

LONDON, July 25.—The British
authorities today refused to per-
mit Thomas Kelly and his wife
and Joseph Smith, all Americans,
to land from the liner Philadelphia.
Kelly wired Ambassador Page
that he was bringing \$50,000 to
Ireland as treasurer of the Irish
relief fund in America, but when
the Ambassador sought to inter-
cede with the home office to per-
mit Kelly's landing the request
was politely refused.

HOPE COALITION
CABINET WON'T
SPLIT FAINT

LONDON, July 25.—The only hope
of averting the disintegration of the
coalition cabinet today lay in the
chance that the Irish Nationalists
would consent to further negotiations
with John Redmond, the party's leader,
demanding immediate action and
with his followers hurling charges of
breach of faith at the ministry it was
admitted that this hope was a faint
one.

Some London papers expressed the
belief that if a break came and a gen-
eral re-election was called this would
result in the support of the cabinet's
course, the Nationalists having lost
the confidence of many Irishmen
through their willingness to treat on
the compromise plan.

The papers took a gloomy view. The
Daily News declared:
"It is humiliating to us in the face
of our friend and our foe at a time
when we claim to be fighting the fight
of the small nationality. It means
that the sympathy of America has
been lost to us and that the whole
sentiment of the dominions is against
us."

Yesterday saw the collapse of
Lloyd-George's plan for settlement of
the Irish Home Rule plan, Premier
Asquith announcing that the govern-
ment would not at this time introduce
any Home Rule measure, as there ap-
peared to be no indication of an agree-
ment between all parties.

U. S. OUSTS LIME AS
CAMP DISINFECTANT;
BLACK CHEMICAL NEXT

BY WILLIAM G. SHEPHERD
(United Press Staff Correspondent)
BROWNSVILLE, July 25.—Good-
bye, good old-style, lime-whitened
army camps! The use of lime was
stopped at all camps this morning.

Major Bispham, sanitary inspector,
issued the orders.

"We have discovered that flies like
a white color," said Major Bispham.
"We are looking for something black
in the way of a disinfectant. Lamp-
black mixed with petroleum is the
latest."

"We want Americans to know the
exact state of health and sanitary con-
ditions here. Many wild stories are
being sent out about illness among
the men, but they are all untrue. The
sanitary department of the American
army can promise America that there
will be no repetition of the horrors of
'98."

OHIO SAVANTS TELL
REMEDY FOR CHIGGERS

WOOSTER, O., July 25.—Troubled
with chiggers? Picknickers and others
may prevent attack from this pest
by dusting flowers of sulphur or nap-
thalene in their clothes, especially be-
low the knees, according to an Ohio
agricultural experiment station bullet-
in available today.

However, if one has not taken this
protection, a hot bath immediately
after exposure to the harvest mites
will counteract their effect. After
long exposure, a bath has no effect,
the bulletin says, and inflamed parts
should be bathed in strong solutions
of ammonia, common baking soda, or
salutaris. A dilute solution of iodine
or colloidion has also been found ef-
fective in many cases.

TO SWIM FIVE MILES
IN THE MISSISSIPPI

ST. LOUIS, July 25.—Nearly a hun-
dred steamers will splash into the
Mississippi river here today to paddle
five miles in the annual five-mile hap-
piness of the Western Rowing Club,
one of the biggest outdoor aquatic
events of the year in the Middle West.
Most of the swimmers represent local
clubs.

THUNDERSTORM EASES

CHICAGO, July 25.—After the hot-
test day in six years, a thunderstorm
today gave temporary relief.

BLACKLIST O. K. WITH TECHNICAL
GIVEN BY N. Y.
BANKS BEFORE
PUBLICATION
WEAKNESS, THE
DISTRICT MAY
BE KILLED

Financiers Saw Profit For U.
S. In S. America In Con-
sidering Boycott

WASHINGTON, July 25.—The
State Department today was in-
formally assured that the British
blacklist was not intended to af-
fect neutrals.
The acceptance by the State
Department of the assurances
was with the understanding that
this government's liberty of action
should not be affected if it sees
fit to enter a formal protest
against the principle of the black-
list.

WASHINGTON, July 25.—That the
British blacklist was not published
until the acquiescence and approval
of several large banking institutions in
New York had first been assured, was
learned today. This fact is considered
responsible for there not being more
firms on the list.

When the question of the effect of
the blacklist on South American trade
was reached the bankers were con-
vinced that the United States would
profit by the boycott rather than
suffer.

FUNDS TO CARRY OUT
GIRL SUICIDE'S SEA
BURIAL WISH AWAITED

LOS ANGELES, July 25.—"Bury me
at sea," the dying wish uttered by
"Thelma Stovall," who took poison to
forget a past that was a failure, has
not been fulfilled. She died Thursday.
Today the body is lying at the under-
taking parlors of John R. Paul, who
has been waiting for sufficient funds
to comply with the girl's last request.
Unless friends or relatives give aid,
the body may be buried in the Potter's
field. Two members of the Humane
Society for Children, Mrs. J. A. Bar-
ton and Mrs. Frank Stoddard, are en-
deavoring to find someone who will
contribute toward a sea burial.

"Thelma Stovall" was Mrs. Earl
McManaman, and mother of a 2-year-
old daughter when she separated from
her husband.

U. S. DEAL TO BUY
DANISH ISLES
NEAR CLOSING

WASHINGTON, July 25.—Negotia-
tions for the purchase of the Danish
West Indies probably will be closed
today. The consideration is approx-
imately \$25,000,000.

BLAMING WOMAN, L. A.
DOCTOR KILLS SELF

LOS ANGELES, July 25.—Amid
scattered notes that branded a local
business woman as the "most dan-
gerous woman alive today," the body
of Dr. E. E. Eads was found last yes-
terday afternoon by Mrs. Laura May
Beck in his home, 1432 North Harvard
boulevard.

Dr. Eads, an aged physician with a
small practice and offices in the Cal-
ifornia building, took his own life by
swallowing cyanide of potassium in
his home.

The physician, who was 75 years
old and who lived alone at 1432 North
Harvard boulevard, was a party in a
proposed exchange of real estate.
When Dr. Eads labored with the
thought that he had been defrauded
in a deal after it was too late to with-
draw, he penned his notes and care-
fully prepared his own death.

L. A. DANCE PETITIONS
HAVE ENOUGH NAMES

LOS ANGELES, July 25.—That the
circulators of the initiative petitions
providing for the submission of an or-
dinance to the people providing for
dancing in cafes and hotels in Los An-
geles have already secured more sig-
natures to the petitions than required
by law to make the petitions sufficient,
was announced last yesterday after-
noon by J. P. Steele, who has charge
of the petitions for the citizen's com-
mittee.

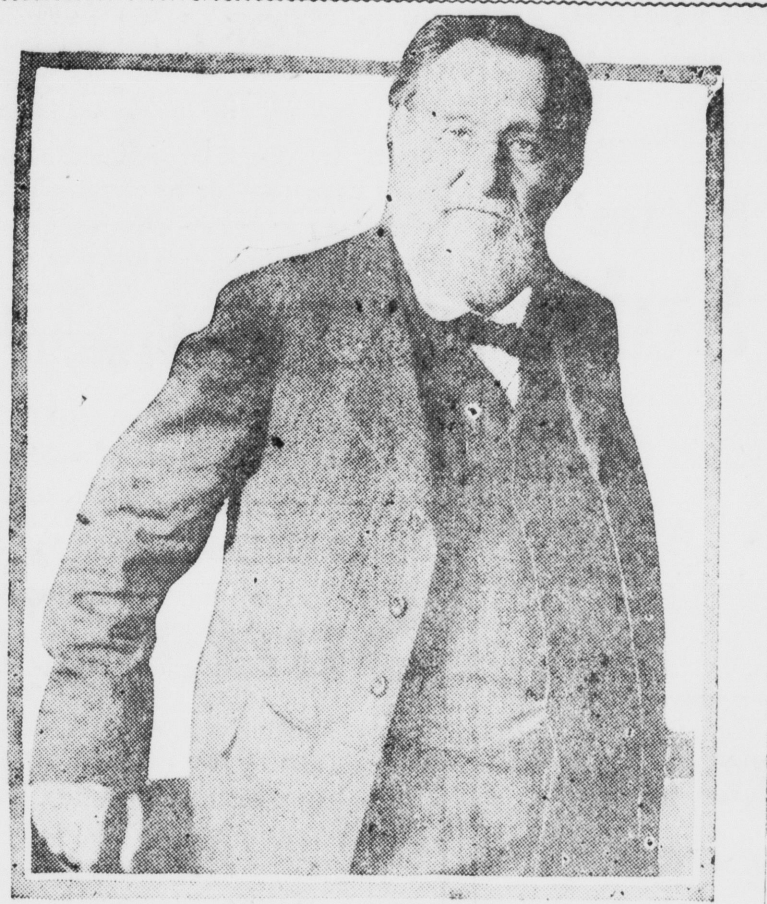

31 SLAIN BY HEAT IN
DETROIT IN 2 WEEKS

DETROIT, July 25.—The death toll
as the result of the heat here in two
weeks today reached thirty-one.

MRS. SADLINGER DEAD

SAN JOSE, July 25.—Mrs. John Sad-
linger, the youngest daughter of John
Brown of Harper's Ferry, is dead at
Campbell, near here, today.

PROFESSOR ELIE METCHNIKOFF, director of the Pasteur Institute in
Paris, is dead at seventy-one. All his family had died young and it
was his own belief that he would not live much beyond fifty-four. It
was then, however, he began the investigation of longevity, which resulted
in his discovery of the cause of long life among the Bulgarian mountaineers.
By following his own method he prolonged his own life beyond that of his
ancestors. For many years now he has been considered the foremost scien-
tist of the world, with the possible exception of one or two British
physicists.

PROF. ELIE METCHNIKOFF

comprise the rolls. Other attorneys
declared that completed books as
turned over to the county board are
the rolls.

Arguments became quite heated at
one time. Attorney Freeman insisted
on objecting to allowing Head to bring
out a point that Head considered es-
sential. Finally Head said:

"You have brought out what you
think should be brought out. Now sit
down and give me a chance."

The upshot of the discussion was
that Eden advised the supervisors
that unless the law had been follo-
wed exactly, the board had no jurisdiction
to act. He said all it could do would
be to dismiss the petition, and let
the petitioners start over again.

E. N. Cook of Anaheim declared that
if the petition was dismissed that im-
mediately another would be brought
and the county would have to go to all
of the expense of getting the hearing
up again.

Attorney Head said he had been
informed that a decision of the su-
preme court was such that the board
could act even without the sending
out of notices. He asked that the
board take no action until that de-
cision and others could be looked up.

TURK WARSHIP SAFE
AFTER BATTLING RUSS
CORDON FOUR HOURS

BERLIN, July 25.—The Turkish
cruiser Midilli broke her way safely
through a strong Russian naval force
south of Sebastopol and returned af-
ter a four-hour engagement, it was an-
nounced today.

BREMEN ORDERED TO
PUT IN AT BOSTON,
SHUN VIRGINIA CAPES

BALTIMORE, July 25.—The Bre-
men will put in at Boston. She has
been positively ordered not to risk
the allied fleet off the Virginia capes.
A high official of the Eastern Forward-
ing Company today announced this.

SLAYS HIS BRIDE AS
SHE LEAVES HIM, GETS
WORK IN A LAUNDRY

KANSAS CITY, Mo., July 25.—En-
raged because his bride left him,
he went to live at the Y. W. C. A., Paul
Weaver today followed her to the
Westport laundry, where she had se-
cured work, and shot and killed her
as she fled.

U. S. STEEL PAYS DIVIDEND
NEW YORK, July 25.—The United
States Steel Corporation today de-
clared a 1 per cent dividend on its
common stock.

The earnings of the corporation dur-
ing the past quarter exceeded any in
its history.

LAST OF GREAT U. S.
DEFENSE MEASURES IS
NEAR SENATE PASSAGE

WASHINGTON, July 25.—The last
of the great preparedness measures,
the \$28,000,000 army bill, today is
near passage in the senate.

GAS RUSH TRAPS
18 IN TUNNEL;
10 PERISH, 8
IN DISASTER
MISSING

Cleveland Horror Increased
Through Lack of Pulmot-
ors For Rescuers

MEN STILL IN BORE
ARE DEAD, IS BELIEF

Deadly Fumes Kill Members
Of Relief Party; Ten
Injured Escape

CLEVELAND, O., July 25.—Ten men
are dead today and eight missing as
the result of a sudden rush of natural
gas into the Cleveland water works
tunnel five miles from shore under-
neath Lake Erie. Up to 11:20 a. m.
ten bodies had been recovered.

Twelve men who were taken from
the huge bore were still alive. Some
of them may die. All except one of
the dead have been identified.

Delay in getting assistance to the
men when the gas burst upon the sub-
terranean workers, lack of helmets
and pulmotors and the absence of di-
rect communication with the shore
five miles distance are some of the
facts in connection with the horror.

Rescuer Overcome

Two firemen, Levell and Kisten-
macher, with gas helmets, were able
to penetrate to the main tunnel where
they found Gustave Van Duzen, su-
perintendent of water works construc-
tion, and leader of a rescue party,
overcome. The body of Clarence
Walsh was taken out at the same
time.

The chamber where the men were
trapped was filled with deadly gas,
firemen reported.

Twelve hours after the accident
happened only eight of eleven re-
scuers had been able to drag them-
selves from the tunnel.

Two of the rescuers who came out
alive were Martin Nelson and Patrick
Koch.

"Every man in that tunnel is dead,"
both declared.

At 9:30 last night George Ellis, op-
erator of the crib elevator, smelled gas.
He noticed the gauge of the com-
pressed air tank bobbing up and
down.

Wildly he woke up John Johnson,
night superintendent of crib No. 5.
"Something is wrong in the tunnel,"
Ellis told him.

Johnson, remembering that work-
men had struck a pocket of gas Satur-
day which had forced them to quit
work until Monday, shouted:
"Come on, boys, we got to go down
there."

Johnson failed to return.
Ten bodies have been taken from
the death hole. Rescuers estimated
that there are thirteen more dead in
the tunnel. Ten men escaped, with
injuries.

METHODIST BISHOP IS
KILLED AS LIGHTNING
HITS FISHING POLE

CARLEISLE, Pa., July 25.—The par-
tially buried body of Rev. William
Perry Cleveland, bishop of the Meth-
odist Episcopal Church in the Philip-
pines and Southern Asia, today was
found on the banks of a creek near
his summer home at Mt. Holly Springs.
He had been electrocuted when his
steel fishing pole touched a high ten-
sion wire.

GIRL BORN WITHOUT
HANDS OR FEET WILL
HAVE ARTIFICIAL ONES

ELYRIA, O., July 25.—Born without
feet or hands, little Frances Camp-
bell of Lorain, O., today is a new ar-
rival at a local hospital for crippled
children. Orthopedic physicians hope
to equip the little girl with artificial
legs so that she will be able in time
to walk and use artificial hands in
performing simple tasks.

\$3,800,000 GAIN IS
MADE BY P. O. DEPOSITS

NEW YORK, July 25.—June re-
cords for postal savings deposits were
eclipsed last month, when a net gain
of more than \$3,800,000 was rolled up,
quadrupling the net increase for June,
1915, according to figures made pub-
lic at the New York postoffice. The
gains were general throughout the
country, notably in the smaller indus-
trial centers.

Postmasters attributed their in-
creases, it is stated, to the country-
wide prosperity of wage earners and
to the legislation of May 18 last,
which increased the limit of depos-
its from \$100 to \$1000 a month.

NOTICE

NO attempt has been made to catalogue this entire stock. We quote here only a few of the many bargains to be had during this final sale. Prices remain in effect while stocks of same last only. Blame no one but yourself if you get here too late.

Attention! Bargain Hunters

SURELY this must be the opportunity you have waited and longed for—a chance to buy real staples, everyday wants at prices less than the actual cost. It is practically impossible for even merchants to buy these goods at the present time, for the regular wholesale prices have advanced from 20 to 40 per cent, and to offer any reductions on them would be business suicide. In fact, it is even hard for the wholesalers to supply the merchants with them. If the present prices continue to advance in the future as they have in the past, YOU will be obliged to pay fifty per cent more for these very same goods in a few months, so NOW is YOUR CHANCE, and, while the stock of same lasts, GET YOUR SHARE.

CITY TRUSTEES TO PAVE THIRD STREET EAST AND WEST

Will Make An Improved Thoroughfare From S. P. to Pacific Avenue

Five Minutes of Prayer
Last night the City Trustees voted their approval of the Five Minutes of Prayer to be held for peace. Rev. Watson, secretary of the Ministerial Association, asked that the approval be given, and it was by the unanimous vote of the trustees present, upon McPhee's motion and Greenleaf's second. The five minutes designated is from 11 a. m. to 11:05 a. m., August 1.

The paving campaign now on in Santa Ana showed decided advancement last night when a petition for paving West Third from Ross street to Pacific avenue with crushed rock and when a petition for paving East Third street from Spurgeon street to

the S. P. with asphalt were granted by the City Trustees. Minor steps in the better streets movement were taken last night.

The paving of East Third street has been hanging fire for several weeks because the contractor, Steele Finley, had not a majority of the frontage signed up for the work. If paved at all, it was the wish of the City Trustees that the street be made an asphalt street, with a concrete base.

Last night Finley showed up at the council meeting with a petition and a contract signed by a majority of the frontage of the street. Upon that showing, the work was ordered done, and the contractor was given permission to enter upon the street for work whenever the street superintendent gives permission to the contractor.

West Third Street

West Third street from Ross to Pacific is also to be paved. Crushed rock and oil will be applied by Wells & Bressler, contractors. While Vrooman act proceedings may be found necessary upon some of the property owners, the City Trustees last night granted the petition for the work, and instructed the street to be put under the improvement act.

The contractors showed that they had 445 feet signed up out of a total of 8,616½ feet. A protest signed by 2059 feet was presented. A statement from the Board of Education was read by Clerk Vegely, showing that the school funds will stand \$200 of the expense of paving in front of the school property, which was not included in the 445 feet frontage signed up.

Another Block

Clyde Butler for the Orange County Engineering & Construction Company stated that Brown street from Lacy to Garfield had all been signed up for crushed rock and oil paving as a continuation of the paving on Sixth street. Permission to open up the street for paving was given. The same firm was also given permission to proceed with work upon Orange avenue between Chestnut avenue and Bishop street. A majority of the frontage has been signed to the contract for crushed rock and oil paving.

Can Work on Vance

Contractor Bressler stated that he understood that his firm had permission to tear up Vance and Stafford streets, upon which some work has been done. He asked for permission, since none had been given. Trustee Greenleaf moved that permission be given for closing Vance street only, it not being advisable to close more streets in that section at this time. The motion carried.

At last night's meeting, Trustee Maryatt was elected chairman to preside in the absence of the mayor, A. J. Visel. The board meets again next Monday night.

AUTOS COLLIDE WOMAN JUMPS AND IS HURT

Speed on East First Street
Credited With Being Partly
To Blame For Crash

With the crashing together of two automobiles on East First street yesterday evening, Mrs. F. Ingalls of Fullerton became alarmed and jumped. Of eight people in the two machines, she only was injured. Her injuries consist of several bruises.

Mrs. Ingalls, wife of a lumber dealer of Fullerton, was in a machine driven by her husband and owned by Frank A. Butterworth, 229 Higgins building, Los Angeles. Others in the machine were Mr. and Mrs. Butterworth and E. Livingston of Chicago.

The party was going west on East First street when the collision occurred. Some of those who saw the accident state that the car was going over thirty miles an hour as it approached Grand avenue.

Going south on Grand avenue and making the turn to the east on East First street was a machine driven by Miss Addie Cook of El Toro. In the machine with her were her mother, Mrs. A. J. Cook, and her sister-in-law, Mrs. George Cook, Miss Cook was driving slowly, else her machine would have overturned. The Los Angeles automobile struck the front part of the Cook auto, and went on. It was several rods before Butterworth's machine came to a stop. Between the time of the collision and the time Butterworth's machine came to a stop, Mrs. Ingalls jumped from the machine. Some of those who saw the accident thought the woman was thrown, but immediately after the accident one of those who were in the Butterworth car said that she jumped.

Mrs. Ingalls struck the pavement, and was unconscious when she was reached. It is possible that she had only fainted. Dr. Burley, who was passing, examined the woman, and said that it was his opinion that her injuries were not serious.

While battered, Butterworth's machine was not out of running order. The party continued on its way to Fullerton without reporting to the police station. Mrs. Cook and her daughter went to the police station

Mrs. Cook's son, City Trustee John Cook of Anaheim, arrived here soon after the accident.

At Fullerton today it was stated that Mrs. Ingalls' condition is such that there is fear that the skull was fractured. It was stated that it might be two or three days before the extent of her injury could be accurately determined.

HOWLAND DESCENDANTS TO SHARE BIG ESTATE

NEW YORK, July 25.—The descendants of Gideon Howland, great-grandfather of the late Mrs. Hetty Green, will participate in the distribution of approximately \$1,250,000, it was announced here by Frank B. Washburn, counsel for some of the several thousand heirs.

Mrs. Green was trustee of a fund from her aunt, granddaughter of Gideon Howland, with the provision that on Mrs. Green's death the fund should be distributed among the descendants of Gideon Howland.

HER LEFT SIDE HURT

No family remedy enjoys a better reputation among intelligent women than Foley Kidney Pills. I took two bottles of Foley Kidney Pills and feel all right now." They quickly relieve backache, rheumatism, aches and pains in a natural way—by driving the poison out of the system. FIREMEN'S SHOW POSTPONED TO NEXT FRIDAY

Owing to the fact that the Los Angeles electricians who were in charge of the installation of new wiring at the Lyric Theater failed to complete their work, it was impossible for the Lyric to open this afternoon with its benefit shows for the Santa Ana firemen.

Positive assurance was given Fire Chief Jackson this morning that the theater would be ready for operation by Friday noon, and accordingly the benefit movies were continued to that time. The shows Friday will start at 1 o'clock Friday night, the proceeds to go to the firemen's emergency fund.

The firemen would be the last people in the world to encourage the hastening of the opening of a theater until the wiring is perfect. Manager Hurlburt also declared positively he would take no chances. He would not allow the show to start until every bit of apparatus and wiring is in, in the right shape, approved by the city electrician.

NEWPORT BEACH

ELECTION CALL INTENTION IS GIVEN SECOND READING

Bonds to Build Jetties and
Dredge Bay to Be Voted
On In September

NEWPORT BEACH, July 25.—Before an audience of less than a dozen people in the council chamber of the City Hall last evening, the Board of Trustees of the city of Newport Beach passed to the second reading of a resolution of intention which is easily the biggest and most important legislation ever passed by a board of trustees of this city. Resolution No. 58 calls for a special election to be held some time in September for the purpose of voting bonds in the sum of \$125,000 for the construction of a stone jetty on the west side of the entrance to the bay and extending 2000 feet out into the ocean and the carrying on of certain dredging within the bay. Before the passing of the resolution an interesting discussion was engaged in by a number of large property holders present concerning various problems which presented themselves in the consideration of the jetties.

It was urged that now is the opportune time to start in on the actual work of jetty construction. By getting at the work in the near future, it was pointed out, the city can get the benefit of the use of the great rock barges and equipment used by the city of Los Angeles in bringing the rock from Catalina before they are dismantled, and the saving alone in this one item will run into the thousands.

The market for bonds, it was pointed out, was never better than at present and as the jetties bonds will be exempt from the income tax they will present an attractive form of investment.

Plans were discussed concerning the feasibility of the city buying a dredger for the work within the bay but nothing was decided upon.

Of the \$125,000 bond issue it is planned to spend \$25,000 on dredging within the bay and the remainder on the jetty wall.

Lew H. Wallace in answer to the query of Leo Goepfer concerning the immediate value of one jetty wall when the original plans called for the construction of two, said:

"During the investigations carried on by the Harbor Commission we employed six of the finest engineers in their line from San Francisco to San Diego and it was the opinion of all of these men that one jetty wall alone would be sufficient for a number of years, at least to insure a quiet and safe waterway from the bay into the ocean."

Resolution No. 58 will be read for final passage at the meeting of the board which will be held on August 7. The election will be called for about the middle of September.

A communication was received from the Balboa Water Show Association asking for certain privileges from the city for the big carnival and water show to be held in Balboa on August 10-11-12, all of which were granted by the board.

Leo Goepfer presented a report on the bulkhead proposition, in which he

stated that he had within ten names of enough of the property affected by the improvement to make 51 per cent. He was instructed by the board to obtain the required number of signatures to make up the 51 per cent of the property affected by the improvement in accordance with the provisions of the Vrooman act and report at the next meeting.

WIFE SLAYER, HAUNTED BY SPECTER, GIVES UP

LOS ANGELES, July 25.—The face of the woman whom he slew constantly looking into his own, the specter form of that woman ever by his side, with a colorless hand in one of his hands, brought a wretched being just before dawn yesterday morning to the University police station.

To the desk sergeant, who half humorously scrutinized the man thus giving himself into the hands of the law, the stranger said:

"I am Charles H. Durkin, murderer of my own wife in St. Louis, two weeks ago. Here I am, all that is left of me, a nervous derelict. Do as you choose with my body."

A telegram was received from the St. Louis chief of police, instructing the authorities here to hold the man. The message read:

"Hold Durkin by all means. Wanted here for wife murder. Am sending photograph for positive identification." Immediately, the man who gave himself up, was placed in solitary confinement.

COMPANY ASKS HOLDERMAN BE MADE CAPTAIN

By Army Custom Place Would
Go to Member of the
Major's Staff

NOGALES, Ariz., July 23.—Company L is in charge of First Lieutenant Holderman, Captain McBride having received the order this morning relieving him of the command of the company.

Lieutenant Holderman will be in command of the company until a commission is issued by the department for captain.

The custom in the army is to promote the senior lieutenant of the regiment to fill a vacancy as in the present case. The senior lieutenant is Lieut. Merwin on the Major's staff of the second battalion.

The men in Company L are hoping that Lieut. Holderman will be their next captain as they want him and want him very much, and are back of him to a man. Should Lieut. Holderman go up to captain, he will have the confidence of his men and should make a splendid captain.

In the National Guard the men elect their own company commanders. Here it is a case of appointment.

"The only plan that the boys have adopted is 'watchful waiting,' hoping that we may soon address Lieut. Holderman as captain."

JUDGE THOMAS' DISTINGUISHED PROTOTYPE

When Judge Thomas got up his "Naturalization Day" program recently it was thought to be the first time anything of the kind had ever been done. It seems, however, that at least one distinguished jurist was ahead of him.

When the newly appointed member of the U. S. Supreme Court, Judge John H. Clarke of Cleveland, Ohio, was Federal District Judge he advocated teaching aliens American citizenship, and, just as Judge Thomas did, he sought to make an impressive ceremony of a foreigner's induction into the privileges and duties of a citizen of the United States.

Justice Clarke has given other demonstrations of his radicalism.

As federal district judge he ordered the car shops of the Wheeling & Lake Erie railroad at Brewster, O., reopened when the road's receiver closed them to cut expenses. This saved a town's wage-earners their jobs.

In a preparedness address in Cleveland he declared preparedness must start with the workman. "If we expect labor to fight our nation's battles we must give labor a nation worth fighting for," said Clarke.

While attorney for the Nickel Plate Railroad he campaigned for United States Senator on a two-cent fare platform. "I'm a lawyer for a corporation, but not a corporation lawyer," he said. But he was beaten.

In 1914 President Wilson made him federal judge to succeed Wm. S. Day. Clarke's a bachelor at 69. He lives at the University Club and he's a high-brow.

LITERARY FLAVOR IN NEWSPAPERS

The purchase by Frank Munsey of the New York Sun, and the consolidation of the game with the New York Press, has set a host of newspaper writers and readers to talking about the distinctive characteristics for which the old Sun was so famous. Other newspapers have had an equally strong individuality, but it would be hard to find anywhere in the world another journal that has ever attracted to its staff such a brilliant staff of writers, with such a gift for picturesque description.

Much as the literary flavor of the Sun under Mr. Dana has been admired, there seems no great demand now for newspaper work of that type. Plenty of men of literary gifts are employed in newspaper work. But the hustle and drive of modern newspaper production tends to repress literary feeling and blunt the edge of this form of genius.

Producing a popular newspaper has become a matter of systematic, energetic, and untiring collection of news, rather than that of a facile, graceful or sparkling style of putting it into words. The modern reporter is sent out to cover the widest ground, to tramp the greatest number of miles, to interview the greatest number of people.

Whereas once he was given a little more leeway in the production of his copy, and could revise and brighten his thought, now his news may be delivered off-hand over the telephone. It has as much literary grace and feeling as any off-hand conversation that you hear in a railroad train or street car, and not a bit more. The public demands to know what has happened and it does not insist that the story be told with any regard to rhetorical force or even grammatical construction.

To many discriminating readers, this change has been unwelcome. Yet modern methods of news collecting are so systematic and thorough and untiring that it produces journals that are very faithful and inclusive records of human activity. They may lack sparkle, yet are a wonderful transcript of human life.

Saloon and Dive Skulk Back of the Grape

BY FRANKLIN HICHBORN.

The saloon and the dive have always made the California wine-grape growing industry a convenient shield.

When the Local Option bill was before the Legislature, that famous orator and banker, A. Sbarboro, and other well known wine men, opposed it on the ground that its passage would injure the wine industry.

When San Francisco attempted correction of the liquor business by district local option, to give the residence districts of the city, for example, opportunity to say whether or not they wanted licensed saloons, Orator Sbarboro and other wine men were on hand to oppose.

And now that the State aims to close the public drinking place, by prohibiting the sale of intoxicants "in any saloon, dramshop, dive, store, hotel, restaurant, cafe, club, dance hall or other place of public resort, except in a pharmacy or on the premises where such liquor is manufactured," we find the wine interests jumping to the relief of the public drinking places, as they jumped to the relief of such places when local option was the issue.

In their efforts on behalf of the public drinking place the wine interests have not acted the part of good citizens, nor of enlightened business men. They have in effect announced that the public drinking place shall stay until the wine interests go down with it.

One does not have to be very farseeing to know what California is going to do with the public drinking place.

As the wine interests have made common cause with the public drinking place; have elected to stand or fall with the public drinking place, it is not difficult to forecast what is going to happen to these saloon-defending wine interests.

Letter From Judge Simon On Assembly Candidature

In reply to the letter of Thomas Crawford to Judge W. W. Simon, in which Mr. Crawford stated that he would not qualify as a candidate for assemblyman, but would support Mr. Simon (which letter was published in the Register of the 22d inst.), Judge Simon has written Mr. Crawford as follows:

Santa Ana, Cal., July 24, 1916.
 Mr. Thomas Crawford,
 Anaheim, Cal.

Dear Sir: Replying to your favor of the 21st inst., stating it is your intention not to qualify as a candidate for assemblyman from this county, and pledging me your support for that office, it is indeed very gratifying to me to have your confidence and help, especially when I realize the strong pressure brought to bear upon you by your many staunch and loyal friends who have been insisting so strongly that you permit the use of your name as a candidate.

I feel as you do when you say, "I cannot see any good reason why partisanship, as applied to national politics, should be a controlling factor in the election of a member of the Assembly," and shall certainly appreciate it if a majority of the voters of Orange county feel this way on November 7.

I believe in an economic administration of the state's business with no unnecessary offices or employees. As to the moral issues stated by you, I heartily endorse the same, and unhesitatingly pledge my support to the prohibition cause.

If elected assemblyman for Orange county I will also advocate all measures tending to promote the welfare and best interest of the people of this county.

Very truly yours,
 W. W. SIMON.

News From Co. L

NOGALES, Ariz., July 21.—Today is letter-writing day for the men of Company L. They have just received a pretty good batch of letters and most of the boys were busy answering the messages from home.

We drilled for regimental parade this morning. The regimental parade will be held tonight on the parade ground, passing in review before Col. Schreiber.

The men made a fine showing this morning and if they do as well this evening it will be a pretty sight. It should be better, as we will have the band. This morning we had no music.

Our signalman, Louis King, is a very popular man. This particular member of Company L has secured two nice boxes of candy in the last two days. Another of the men who will bear watching is W. R. Metz. The big fellow received a mysterious box that was said to have contained fried chicken. What do you know about that—fried chicken out here at Nogales?

"Slim" Jaeger was a happy man today because somebody handed him a whole box of lemons instead of one, which is the traditional allotment. Slim had a smile that will never wear off.

The boys of Company L were highly pleased when they were given cookies at mess last evening. For them the boys send their many thanks and best wishes to Mrs. Fred Culver. Those ginger cookies were intensely popular.

A box of satsuma plums was received from Mr. and Mrs. J. W. Mitchell, sent to their son, F. H. Mitchell, for the company. The plums were divided among the boys at the evening mess.

Such gifts are appreciated and will be long remembered by the boys. Corporal Buchheim was in charge of quarters today and men were kept busy policing the street and shining up their quarters.

The Seventh Regiment canteen is a busy place these days. It has only been opened two days, but is being well patronized.

Some people may misunderstand the meaning of the word "canteen" on account of certain articles that have been published. I will say that it is a sort of general store where the men can buy stationery, soap, tobacco, almost anything that a man would want, including soda water and ice cream cones. Two checks are allowed each enlisted man, each month. Each check is good for \$1 in trade. The proceeds goes for the benefit of the Seventh.

This concerns Private Charlie Jackson. Some of the boys say that he is afraid to write certain letters in the company street, so he borrows a candle or a lantern from the works and goes up on the hill to attend to his correspondence, where he will be alone.

The Missouri meershaums are much in evidence in the company street since the canteen has opened. There are several among the members of Company L. "Being as how" finances are getting low, the Missouri pipe, which costs only a jitney, is very popular.

An unexpected detail was called to guard the top sergeant's quarters this afternoon. It is not known what the guard was for, but it was rumored that the "top" was going to take a bath. Those on the detail were Privates Jaeger, Kinslow, Metz and Coleman.

Upon the sergeant's return he found his clothes in huge and numerous knots. Sergeant Kirkpatrick received a box from Los Angeles a few days ago and since then has had "dreamy dreams."

Private Leroy Christensen is a long letter writer. He is long enough, that's

sure. But about the letter—he started one at 3:15 and had not finished at the time for retreat drew near. The young man had to finish his letter after mess and it is not known how long it took. It is estimated that it took all of three hours.

The boys that have cameras are very busy taking pictures. Some will be sent to Sam Stein for slides for the theater, so Orange county people can see what the boys are doing in camp.

The writer of these little articles of company news has received several letters from people in Santa Ana telling of their appreciation of the letters. I certainly am glad to do what I can to keep the people at home informed as to our life on the border. It is through the kindness of the Register that I am able to do it.

Good-bye and good luck.
 PRIVATE F. H. MITCHELL,
 For the Company.

NOGALES, Ariz., July 22.—Today was inspection day in the Seventh. This inspection is held every Saturday morning at 8:30. The inspection of rifles is by the company officers. Lieutenants Holderman and Ford were the inspecting officers this morning.

Major Allen inspects the quarters and always has a compliment for L Company.

Lieutenant Holderman and Quarter-master Sergeant Christensen were busy issuing underwear, new khaki trousers, and shoes. So the boys are all sporting around today.

Private Bill Graves was a happy man this afternoon when he received a box of fruit consisting of pears, plums and peaches. "Bill" immediately opened the box to the boys and told them where it came from. For it the boys send their thanks through the Register to Mr. and Mrs. Samuel Nau of Tustin.

Corporal Swanner was the recipient of a box of fruit which was generously divided among the boys.

There was a great contest pulled off in the company street this afternoon when "Slim" Jaeger and Shackles Rochester were in a high kicking contest. Jaeger coming out the winner after a hard fought contest (?).

We had regimental review last night and it was certainly a pretty sight with all twelve companies coming up on the line, every line straight and every man erect and in step with the music of the 7th Regiment band.

Corporal "Pete" Reihl is the latest addition to the ranks of those that are attempting to grow "Charlie Chaplin" on their upper lips. Co. L will be a handsome bunch of men when they get home.

Private Newton is walking up and down the company street with a proud step today because he has a new pair of trousers and shoes that were issued today. Every time it looks like rain, Newton ducks for cover for fear that he will get his new duds spoiled.

A regimental glee club is going to be organized in the regiment. All the men in the outfit that can sing have been invited to join. The club will consist of fifty voices, from which a double quartet will be organized. Company L will be represented by Sergeants Walton and Kirkpatrick, both of whom are good singers.

Seventy-six Kelly-Springfield trucks have been unloaded and put to use of the camp.

There is quite a little breeze coming up and we are looking for a little shower this evening. We are getting used to them.

"Admiral" Billy is a paper eating goat, for this afternoon he ate a whole sheet of paper and a large piece of

whole wheat bread. Billy and the rooster are both getting fat. They are mighty well fed by the men.

 Persistence is a jewel, too.

The man who has marked out for himself a certain line of endeavor and sticks to his purpose like a pup to a bone either is going to arrive or die fighting, the latter not being an inglorious end. It is more satisfying than to be whipped, anyhow.

Of course, such a man must have some ability, and his ambition is a fair indication that he has it. Also he must take knocks philosophically, and feel a pity for such as seek to discourage him.

Sarah A. Rounds Tent Receives Appreciative Letter From Capt. McBride

The Daughters of Veterans met in G. A. R. hall Monday afternoon and an application for membership was received.

Twenty calls on the sick were reported and several bouquets sent.

The following letter was read:

Camp Stephen Little, Nogales, Ariz., July 14, 1916.
Mrs. Lenore Ward, President
Sarah A. Rounds Tent, Daughters of Veterans;
Dear Madam:

Acting in behalf of the officers and men of Company L, I wish to extend to the Daughters of Veterans our most sincere and heartfelt thanks for the "Housewife Companions," which were such a well-chosen gift to the soldier in the field.

It may interest you to know that we were the only company to be remembered in this way and when they were passed out to the men we were the center of attraction and many a dear one in other towns has received suggestions as to what to send.

It is the spirit of patriotism in such organizations as yours that bears up the men on the line and I hope and trust that the members of your Tent can always be proud of the men who answered this call.

Yours truly,
J. L. McBride, Captain,
Co. L, 7th Inf., Cal. Mil.

The Daughters of Veterans will hold their fifth anniversary tea next Wednesday afternoon at the home of Mrs. A. S. Holbrook, 303 Orange avenue.

Miss Cornell Pleased Audience

Miss Edith Cornell, who made her bow to a West End Theater audience last night, composed of the representative people of this city, made a warm place for herself in the hearts of her people. She has a beautifully soft contralto, but sings with strength and feeling. Her first number was "Dear Heart" and the second a light number, which was greatly enjoyed.

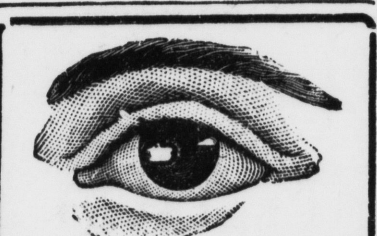

Miss Cornell will sing again tonight and tomorrow night at the Temple, singing new numbers.

"The Melting Pot," which was the play on for last night, was also enjoyed by the audience, which packed the theater at both performances. Those who have read the book, seen the Chautauqua play and then the screen pictures, feel that they have had the opportunity to get the spirit of the play.

GOOD FAMILY PLATFORM

* Live within your means, save a little money, acquire a little property.
* Teach your children not to be ashamed to work at any honest labor and shun idleness.
* Avoid, if possible, having them grow up with the idea of getting soft jobs from the public.
* Prepare plain food at home instead of buying high-priced canned stuff and delicatessen supplies.
* Teach the girls to make their own clothes, trim their own hats and keep accounts of their expenses.
* Let the family respect industry and cultivate harmless and inexpensive amusements.

LEAP YEAR DANCE

Chatt 'N' Seau Girls Entertain Gentlemen Friends at Pretty Roof Garden Party

One of the delightful affairs of recent days was the merry roof garden leap year dancing party given last evening by the Chatt 'N' Seau Club members to their gentlemen friends, Misses Edna Meyer and Emily Lykbe being hostesses.

The roof garden at the Meyer apartments on Spurgeon street is a charming place and last evening it presented a more than pretty picture with its myriads of large Japanese lanterns twinkling amidst their garlands of delicate cherry blossoms and suspended from each a tinkling Japanese wind bell.

In the center hung a large varicolored Japanese parasol, garlanded with cherry blossoms, morning glories and ferns. At one side was an arbor, also alight with lanterns and gay with blossoms from the Flowery Kingdom. Rustic benches were placed here and delicious punch served during the evening.

The dainty little dance programs were much prized by the company of young people, as they bore the photos of the Chatt 'N' Seau girls framed in Japanese morning glories, hand-painted and bore the name and date.

During the evening the hostesses were assisted by Mrs. D. Meyer and little Florine Meyer, mother and sister of Miss Edna Meyer. A two-piece orchestra furnished delightful music.

Those present were Misses Irene Craemer, Alice Huntington, Esther Fluor, Emily Lykbe, Edna Meyer, Helene McNeill, Mena Miller, Gertrude Potts, Lucy Stephens, Mamie Tucker, Misses Carrie, Gertrude and Mamie Rommel of Los Angeles, guests of the club; Messrs. Claude Sieper, Eugene Trago, Harvey Gardner, Leslie Williams, Louis Butterfield, Andrew Lykbe, Clyde Whitney, Leonard Baker, Irving Meyer, Jess Baggerly, Victor Meyer, Lyle McMullan and Leslie Mitchell.

Charming Outdoor Party

The yard at the Gould home on North Main street is an ideal place to have a gathering and yesterday afternoon also being an ideal one, the thirty guests of Miss Norma Wingood enjoyed the function in the fullest measure.

The orange trees were abloom and spread their fragrance abroad and the roses vied with one another in the brightness of their hues and these, with the lovely faces of the maidens and their summery gowns, made a beautiful picture.

The time was passed with various games and dainty ices and cakes were spread on small tables. The affair was given in honor of Miss Wingood's house guest, Miss Irene Hall, from Pomona College, and the majority of the guests were also collegemates of the young hostess.

Leaves On Vacation

Rev. F. G. Watson, pastor of the Richmond Ave. M. SYCAMORE LODGE

Has Splendid Meeting and a Fine Supper At Odd Fellows Hall Saturday

At a well-attended meeting Saturday night of Sycamore Rebekah lodge, several resignations were received and accepted with regret. Principal among these was that of Mrs. Bertha McBurney, who had been elected Noble Grand. Mrs. McBurney was not able to be here for installation, as she was ill at her home at Hemet. Last night her resignation was received, as her health has not improved.

Mrs. Elizabeth Jernigan, the past Noble Grand, was elected to fill the place for the coming six months.

Mrs. Mae Curtis also resigned as she expects to be in the east for probably six months. Mrs. Hattie Peters was elected to fill her place as secretary. Mrs. Emma Chandler was elected to fill Mrs. Peters' place as Right Altar Supporter.

After routine business had been dispatched, the company of about ninety people was invited to the Odd Fellows hall, where an elaborate supper of fried rabbit, hot biscuits, mashed potatoes, gravy, sliced cucumbers, peaches, cream and coffee, were served. The Past Noble Grand having the meal in charge. The tables were beautifully decorated with red and green.

NEEDY FAMILIES OF GUARDSMEN WILL GET STATE AID, IS REPORT

In view of the efforts made in Santa Ana to aid the needy families of members of Company L, the following item from the Los Angeles Examiner of today is interesting:

Through its chairman, John F. Neylan, the State Board of Control yesterday sent a communication to the Board of Supervisors stating that the state body would co-operate with the county in the effort to provide for families of national guardsmen now at the front and who are in need. The supervisors were furnished with a list of 171 married guardsmen from this county.

It was suggested in the communication that the county establish stations where provisions and financial aid may be obtained. The board also received a letter from Superintendent of Charities Martin relative to the matter.

The board accordingly passed a motion calling upon Martin to prepare at once data on the families who are in need and immediate action looking toward relief will be taken.

"PLYMOUTH DAIRY" A NEW ENTERPRISE ON EAST FOURTH STREET

Workmen are busily employed in remodeling the interior of 109 East Fourth street for a new business enterprise, the "Plymouth Dairy," which will open for business about August 1, under the proprietorship and personal management of A. Poschman.

"We shall churn butter in our front window," said Mr. Poschman, "and serve it direct from the churn to our tables. We shall also serve dairy lunches and light meals, including cold drinks, and the quality of the food and the manner of service will be such as to please the most fastidious tastes and habits."

Mr. Poschman came from San Diego, and with his family, is living at 15 Mortimer street.

PAUL KNAUF IS GUEST OF KETNER DURING STAY AT U. S. CAPITAL.

Paul Knauf, Santa Ana's well-known tonsorial expert, is certainly seeing the sights in the East. In a letter written from Baltimore to Postmaster D. Overshiner he tells of a trip to Washington, where he was shown about by Congressman Ketner.

"I must say," Knauf writes, "Ketner is on the job every minute of the day, working for his people's interest. He just got a claim through for a man who was hurt on a government job."

"I heard Senator Shafroth of Colorado make a talk on the condition of the country and figures show that there never was as much gold and so much prosperity in the country's existence."

"Ketner showed me through the capitol buildings. It was a royal treat and I must say I saw all there was to be seen in the short time I had. Ketner has his hands full, I can tell you, and besides that his wife is not in good health."

"Ketner sent me a packet of Glynn's speeches and told me to tell my partner to see that all good Democrats and Republicans get a copy. He wishes to be remembered to Horace Head, George Edgar and all his friends."

START WILL BE FROM CITY HALL AT 5:45

All those who expect to attend the Associated Chambers of Commerce banquet at Seal Beach tomorrow evening are requested by J. C. Metzgar, secretary of the Santa Ana Chamber of Commerce, to be on hand for the start from the city hall at 5:45 o'clock tomorrow evening.

SISTERS MET TODAY FOR SECOND TIME IN 50 YEARS

With their addresses unknown to each other for twenty-five years past, two sisters met at El Modena today for the second time in fifty years. The sisters are Mrs. D. H. Dunkin and Mrs. Anna Rogers, the latter arriving today from Fort Scott, Kan.

Mrs. Dunkin is an invalid at the home of her daughter, Mrs. E. F. Wickersheim, at El Modena, who was located only a few months ago by a letter addressed to one of her old addresses being forwarded to her at Fort Scott. Many letters sent to former addresses were returned. The last meeting of the sisters prior to today was at Pierce City, Mo., twenty-five years ago.

Mrs. Rogers will make her home with the Wickersheims. Wright and Dunkin Transfer, who is a nephew, met Mrs. Rogers in Los Angeles this morning and accompanied her to Santa Ana.

"KEEP AWAY FROM IT," SAID OF CANYON ROAD

Unfavorable reports of road conditions in the Santa Ana canyon are brought back by F. E. Hallman of Orange, who took the newly-finished road on a trip to Hemet Saturday. "Stay away from it," is Mr. Hallman's advice.

The road is in fair shape to the Orange county line. Mr. Hallman says. The by-pass roads back of Sulphur Slide and other points are passable and easily negotiated with careful driving. In Riverside county, however, the road is frightful. Road work is now going on and by-pass detours are frequent. These are in almost impassable condition, and Mr. Hallman had no little difficulty with his big Buick Six in getting through. Dust was over a foot deep in most places and the detours were exceedingly rough and winding. He made better time on the return by coming through Pomona and the Brea canyon.

AMUSEMENTS

At the West End
Edna Goodrich, the celebrated beauty and dramatic actress who appears in the Morosco-Paramount feature, "The Making of Madalena," at the West End Theater tonight and tomorrow, has had a long and brilliant career.

The principal successes of the many Miss Goodrich attained on the dramatic stage after a beginning in musical comedy were, "The Genius," her own production, which proved such a hit that she became Nat Goodwin's leading lady in "When We Were Twenty-one," then co-star with Goodwin in "The Gilded Fool," "In Missouri," "The American Citizen," "The Master Hand," "The Native Son," "What Would a Gentleman Do?" and "The Merchant of Venice."

Miss Goodrich was approached by Dan Frohman in 1914 to join the Famous Players Company, but did not enter the field of pictures until this year.

LARGEST GRAPE CROP IN 10 YEARS FORECAST

POMONA, July 25.—Not only will the grape crop of this state be the best in ten years, but the returns to the growers will be the best, according to a statement made by George Belcher, well-known grape grower of this district, who has just returned from a tour of inspection of many of the big grape growing districts.

Mr. Belcher explains that while there are some sections where the crop is light as the result of unfavorable weather conditions, the majority of the districts are making a splendid showing.

BAR DANCES AT CHURCH FUND ENTERTAINMENTS

NEW YORK.—The ban on dancing recently promulgated by the papal consistory will be interpreted by American priests of the church to prohibit dancing only at entertainments designed to raise funds for churches, and which are in charge of priests, it was learned here.

The ruling does not bar Catholics as individuals from participating in private dances, nor does it prevent religious or semi-religious organizations from holding dances, according to the interpretation by the local church authorities.

The Fallacy of Paraffine Base: Eastern oil manufacturers have long extolled the superior virtues of paraffine-base motor oils. But Pacific Coast motorists have proved that Zerolene, made from selected California crude, asphalt-base, gave best results. Their experience is now supported by the testimony of international experts. Lieut. Bryan stated before the Am. Soc. of Naval Engineers: "Oils made from the asphalt-base crudes have shown themselves better adapted to motor cylinders, as far as their carbon-forming proclivities are concerned, than are paraffine-base Pennsylvania oils." Zerolene received highest competitive awards, San Francisco and San Diego Expositions. Dealers everywhere and at service stations and agencies of the Standard Oil Company.

BATHERS' SAFETY INCREASED BY NEW FLOATS AT BALBOA

Life-lines Installed; Water
Carnival Queen Contest
Grows More Heated

NEWPORT BEACH, July 24.—A much needed improvement along the ocean front which will contribute largely to the safety of the surf bathers was made yesterday when the new bath house company, of which E. H. Rose is the owner and J. R. Tudor the manager, installed a fine new life line for the protection of the bathers. The line is extended out from the shore from two large pilings jettied down into the sand and carried out in two separate lines to two hollow floats at a distance of about 500 feet from the shore. Well supported by a large number of buoys which are placed at intervals of only a few feet, the line is held near the surface so that it will be at all times available for the use of the tired swimmer. A large car wheel holds the float in place on the sea side.

Much credit is due to the new bath house management for the pleasing innovations it has introduced from time to time for contributing to the comfort of the bathing public and from the looks of things the public is substantially showing its appreciation by ably supporting the new enterprise.

Manager R. T. Sims of the queen contest for the Balboa Water Show Carnival which will be given here on August 19, 11, has stimulated a great deal of interest in the contest by his work in the neighboring cities of the county and in this city. At present there are six perfectly able-bodied and very much alive candidates for royal favors. In the order of their announcement their names appear as follows: La Verne Collins, East Newport; Hope Trickey, Balboa; Esther Paul, Santa Ana; Josephine Wilson, Newport; Eva Ater, Santa Ana, and Mrs. S. F. Whittaker of Balboa.

Heated Contest
At the outset the contest bids fair to become a heated one as the various managers of the young ladies are very active in their efforts to secure votes for their respective candidates. The popularity of the weekly race and water sport card was attested to in

An Inside Bath Makes You Look and Feel Fresh

Says a glass of hot water with
phosphate before breakfast
keeps illness away.

This excellent, common-sense
health measure being
adopted by millions.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do. Men and women are urged to drink each morning, before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs. Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little, but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.

a most convincing manner yesterday when a number of people visited Manager F. H. Girvin and insisted that some events at least be run off Sunday afternoon. It had not been the purpose of the Water Show Association to have any races yesterday, but in response to the popular request, "Freddie" must needs stir himself to make a "Roman holiday," so a hurried card was arranged consisting of a handicap sail-boat race, an Evinrude race and an exhibition speed boat trial. The events were much appreciated by the large crowd that gathered on the water front to cheer the exciting finishes, and from now on regular programs of sports will be held each Sunday.

AN OLD PROVERB

—It used to be proverbial that every man (and it is certainly no less true of woman) is either a fool or a physician at forty. This means that every intelligent person must learn so much about caring for his own health that by the time he is forty years of age he can almost be reckoned as a physician.

Why, then, is there so much talk by doctors against "self-medication?" A woman can recognize all ordinary ailments without calling on a doctor. If they are ailments distinctive to her sex she generally knows enough to use the greatest of all remedies for such ailments, Lydia E. Pinkham's Vegetable Compound, and likewise she is familiar with the standard remedies for other diseases.—Advertisement.

FINE EXHIBITS ARE SHOWN AT DOWNEY'S FAIR

CHAMBER OF COMMERCE, Los Angeles, July 24.—Saturday I played hookey and went down to Downey to introduce the "inner man" to a square meal, and I gave that receptacle such a pleasant surprise as it has not enjoyed before for many years, if ever. About a fortnight ago, one of Downey's most influential citizens came in with a smile in one hand and an invitation in the other, and gave me such a welcome call to their barbecue that I was powerless to resist, in view of the fact that our neighbors have been backward of late in bringing food-stuffs in.

Once upon a time we lived on a farm adjacent to the county road, a convenient place for tramps to stop and ask for a "hand out." In order to safeguard the family larder from total annihilation, I kept a pile of wood, with an axe, none too sharp, ready for the foot-weary knight to work his passage to the kitchen table, and this plan was not altogether dissimilar to the one adopted by the Downey invitation committee.

In consideration for a seat at the festival board, I was to assist in passing judgment on the fitness of the products on display and award a blue, red, or white ribbon, according to merit. These Downeyites sure had one big surprise hid away for me. They had Valencia oranges, as fine as ever grew in any soil, or under any sun, and they claimed to have grown them in that locality, and if they had not made a good impression, by their wholesome generosity I certainly would have said "they were Placencia grown."

Our "Pointo King" of the peat lands will have to look well to his laurels, lest he wakes up some fine morning, and look into an empty cage.

These Downey folks are growing some spuds that will keep the best there is in the land dodging sideways to get around them. The exhibits as a whole were good, and the samples well chosen, and the people—well, there were more than 4000 of us, and every mother's off-spring was happy—after the barbecue, baseball, broncho riding and "hoss racing" of a mild form, added a side line to the day's gaiety. I rather like these Downey people and if they ever indulge again I hope they will hang the latch string on the outside, where I can pull it.

Only for one or two things and I would be willing to send the Downey people an invitation to come over and get under our protecting wing. I would not be at all surprised if "Barcus" was willing, if they could find a way. That is a mighty all-fired rich country lying along the borders of the placid San Gabriel, and would look real pet, tacked on to Orange county.

I met Doc Tripp Saturday morning, tormented in his best regiment. I said, "Mr. Tripp are you going on a long trip?" He looked pleased and replied, "Only down to Downey."

SMASHED INTO FENCE, DRIVER HELD BY RAIL

Remarkable Escape From
Death Occurred Near Seal
Beach at 2 a. m.

SEAL BEACH, July 25.—Death rode close to Harry Lewis, 25 years old, a mechanic employed at a local garage, when he ran his automobile, containing another man and two Long Beach girls, whose names were not learned, into a fence on the first turn out of this city on the Long Beach boulevard at 2 o'clock yesterday morning.

A big 2x4 scantling, part of the fence broken up by the speeding machine, passed clear through the radiator of the automobile and pinned Lewis in the seat so tight that it took the efforts of three men to dislodge the timber and free the driver, whose escape from death was marvelous. Had the post struck its victim just an inch higher occupants of the machine declare that the driver would have been killed instantly.

The unknown man who was riding in the machine was thrown out of the car onto the road and stunned. He was carried to the Seaside Hospital in a passing automobile, and was lying on a cot, when, during the absence of the attending physician, who was called to the telephone, he suddenly regained consciousness and walked out of the hospital without revealing his identity. He was also employed in a local garage.

The two girls, who only received minor bruises, were hurriedly hustled away in another machine to save their names from being learned, by passing autoists returning from the cafes, which had just closed. The machine was badly wrecked, losing one front wheel, smashing the radiator and completely demolishing the windshield and steering apparatus.

Let It Stop Your Figure Mistake Losses

AN error made when you add up a cash sale while the customer is waiting, or an error that escapes detection on a charge sale slip are losses that can never be recovered.

If the mistake is in your favor, the customer resents the over-charge and is likely to quit trading with you. If the error is an under-charge the customer will be most unlikely to say anything about it. So in either case you are the loser.

You need this Burroughs to protect your profits—to stop your figure mistake losses. Your customers will recognize it as a service—it will create their good will and help you in building up your business.

You Can Use It On The Counter

Merchants in different lines of retailing are using this Burroughs Figuring Machine right on the counter where

they wrap up the goods. Clerks add cash and charge sales on the Burroughs, and every customer is handed a machine-printed slip that shows each item of the purchase and a total.

Customers appreciate this service for they are convinced of the merchant's desire to protect them against over-charges. At the same time it protects the merchant against figure mistake losses.

An Aid to Clerks

In its operation it is as simple to understand as your cash register. Any clerk can learn to add and print on the Burroughs in a few minutes. He gets a correct total every time, because the Burroughs can't make a mistake.

It is an investment that will pay for itself many times over in losses prevented. If you prefer you can buy this Burroughs on easy terms.

on almond growing in the Templeton-Paso Robles district, by Mr. E. W. Parker every day, promptly at 11 o'clock a. m., at the Chamber of Commerce of Los Angeles. You will be well repaid for your half hour's time listening to his interesting and instructive talk illustrated with many views of orchards, individual trees and natural scenes of wonderful beauty. Since I first told you through the medium of this paper that the Templeton-Paso Robles country possessed a combination of conditions—climate, scenic, quality of soil and abundance of rainfall, wide variety of products, market facilities and social advantages—possessed by no other one locality in the state, many new people have located there, several thousand acres of new orchards have been planted and through the publicity given the Atascadero Colony the district is fast becoming nationally famous. It's a fine place for a home, a good place to make money, land prices still low. Now is a good time to buy large or small. I am sure if you drop me a one cent postal with your name and address plainly written, the booklet I will send you will give you much valuable information.

LOS ANGELES PRODUCE MARKET

Sweet potato receipts are increasing steadily and as a result prices for the spuds are declining. Yesterday most of the wholesalers dropped their quotations to 4½ and 5 cents a pound from a previous price of 6 cents. The northern part of the state is now sending the best specimens that we are receiving. Locals are also increasing but the height of the season is still a month off. White potatoes are firm and there is a likelihood of an advance in values in the near future. In the vegetable list there is not much to report these days. Prices rule firm as a general thing, and what changes are incorporated in quotations usually represent a decline. Thus wax and lima beans were reduced to 3½ and 4 cents a pound yesterday and bell peppers are less expensive at 8 and 9 cents per pound.

ASSESSMENT OF OIL COMPANIES GETS \$59,500 ADVANCE

Assessor Sleeper's Rolls Approved, Turned Over to Co. Auditor Jerome

The Board of Equalization yesterday afternoon raised the assessment of the Fullerton Oil Co. \$12,245 and the assessment of the Brea Canyon Oil Co. \$47,250.

The Crown of the Valley and the Columbia oil companies were not raised.

Neither of the oil companies that were raised made any protest to the raise. They had feared that a raise of \$200,000 might be made. However, the testimony convinced the supervisors that the assessments were substantially correct as made by Assessor Sleeper. Attorney R. Y. Williams, representing the oil companies, stated that they were satisfied with the changes made.

Marked differences in the cost of production between the Birch Oil Co. property and the properties surrounding it were shown in the testimony taken at the hearing yesterday.

Many of the wells near the Birch property were shown to be producing less than 100 barrels a day and that under pump.

Following the changes in the assessment of two oil companies yesterday, the rolls were adopted and were turned over to County Auditor W. C. Jerome, who will be busy for two or three weeks making up the total assessment figure for the various districts and municipalities and for the county. When the supervisors decide upon a tax rate, the auditor will figure out the amount due from each piece of property as taxes for 1915-16.

In the evidence yesterday one of the witnesses stated that during the time that oil was bringing low prices, the Birch oil, being of high quality, brought 60 cents a barrel, while some of the oil on adjoining properties brought only 42 cents a barrel.

Last week the board of equalization allowed the Birch Oil Company a reduction of \$45,000 in its assessment. The Birch company now has an assessment of about \$600,000.

Dismissal Notice

Notice of dismissal of the case of Ira Chandler vs. Paul Wisdom was filed with the county clerk today by W. F. Heathman, attorney for the plaintiff.

The action was brought to gain possession of the building on West

Fourth street, recently vacated by the Cole garage. It was built by Chandler for Wisdom in 1913, the latter taking a five-year lease. The rent for the last six months of the lease, amounting to \$360, was paid by Wisdom at the time of making the lease. Rent to the amount of \$188 was due from Wisdom. Settlement was made by stipulation. Wisdom surrendering the property on condition that he be released from responsibility for the back rent. Chandler retained the \$360 paid in advance.

Over a Restaurant

Ambrosio Quintero has brought suit against Antonio Elias for dissolution of a partnership in the Spanish restaurant at 203 North Sycamore. The plaintiff states that he put \$125 into the business last September, and was not allowed to take any part in it after May, 1916. The court is asked

to appoint a receiver. B. E. Tarver is attorney for the plaintiff.

Judgment Given

Judge Thomas gave judgment for the plaintiff in the action of M. C. Chase against Leora Newcomb. Suit was for \$100 alleged to be due for cleaning out a well.

Found Nothing

Sheriff Jackson has made a return of execution issued in the case of F. E. Copp against Marvin R. Lee. Judgment was for \$257.22. The sheriff reports that he found nothing upon which to levy, and the execution was returned unsatisfied.

Sues to Collect

Attorney E. E. Keech for the Anaheim Union Water Company has brought suit against the Richfield Oil Company to collect \$2091.88 alleged still to be unpaid upon a total of \$23,914.73 for oil delivered by the water company to the oil company between May, 1915, and April, 1916.

For Administration

Public Administrator Winbiger has asked for letters of administration upon the estate of Susan E. King. The estate is valued at \$500. C. H. Stanley and E. T. Lagley are attorneys for the petitioner.

LID CLAMPED ON CAMPAIGN COIN EXPENDITURES IN NEW BILL

WASHINGTON, July 25.—A corrupt practices bill introduced by Senator Owen of Oklahoma placing rigid restrictions on money spending by candidates for office has run the House gauntlet successfully, and with the administration's solid support, is waiting today to be pushed in the Senate so as to be effective for this year's presidential and congressional election.

"You can't buy a cigar for an old-time constituent under that bill," asserted an indignant House member as the measure was about to pass there. Its friends declare it makes slush-funds, jack-pots and expenditures out of the reach of the ordinary man, impossible.

Under penalty of a fine up to \$10,000, imprisonment of not less than a year, and—in the case of a candidate for office illegally elected under its provisions—disqualification for his office, the bill:

Forbids candidates to promise offices in return for support; expenditures other than costs of meetings, literature, and other specified items; corporations or their officers to contribute to a campaign fund; importing money into a congressional district to affect the congressional election; newspapers to run "puffs" without labelling them "paid ads;" withdrawal of ads or patronage from a newspaper because of a political stand.

A president may not have more than \$50,000 spent to obtain his nomination; a vice-president is limited to \$25,000. A senator may spend \$5000 for nomination or election; a congressman, \$2500. In addition, the national committees may spend \$400,000 for their presidential tickets; and the national congressional committees the same amount. National officers are criminally liable if more is spent.

No money over \$50 may be spent, by any individual for a candidate, acting for himself alone.

When individuals organize into clubs, they must register with the clerk of the House of Representatives, keep a public account of all funds received and paid out and twice before and once after election file these expense accounts at Washington.

The total any man may spend, whether as an individual or as a club member, or both, is \$5000.

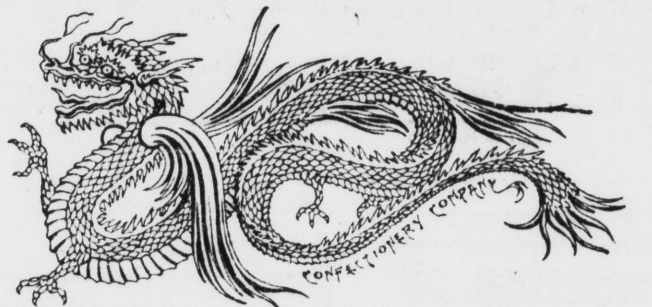

The fine and imprisonment clauses are not discretionary with the court. Anyone found guilty must be imprisoned one year. Convicted candidates too must lose the places to which they were illegally elected.

Witnesses who testify for the state are granted full immunity, except for perjury committed on the stand.

Each and every person who handles, receives, or pays out money illegally under this act, is individually criminally responsible.

Going to Los Angeles take Crown Stages every ½ hour, round trip \$1.00.
